'World Government' Means World Slavery

TWO KINDS OF ARITHMETIC

(By E. F. Hutton, an American Businessman who has the courage to "stand up and be counted" for America)

After 1776, a new kind of arithmetic provided the basis and foundation of American thinking. It was simple arithmetic — it posed the problem this way: Make more and more goods for less and less cost so that more and more people can buy them. It clearly recognized the goose that lays the golden egg, so it centered effort on cutting costs — making more — Selling for less — to more people. It was not long before the world took notice of this simple arithmetic and people flocked to our shores to take part in the great American adventure.

Along about 1932, out pops a different kind of arithmetic — collectivism. It posed the problem this way: "spend two or three times your income" — even if you have to borrow the money to do so — "spend and spend, tax and tax".

Let America examine these two kinds of arithmetic — the 1776 brand which recognized and preserved the goose which lays the golden egg or the 1932-1945 arithmetic which says "to heck with the eggs — eat the goose".

GOVERNMENT HAS NOTHING

Tax money constitutes all government income — all it spends must come from taxes, either today or tomorrow. Borrowing merely postpones. So if they are spending more than they take in from taxes, it does not worry the collectivists. They rely in the simple expedient of printing bonds and selling them to the people — it is all done on paper. But the paper part of government income merely postpones, and if it does not stop it shifts the burden from you to your children's children. So the collectivists do all the collecting. You don't.

They say "use your outmoded Am-

erican Arithmetic to produce more wealth — we need it — so as to tax it away from those who produce it — to pay the interest on the bonds we sell to those who take them, so that we can continue to spend two or three times our income."

ATTACK ON COLUMBIANS SIMILAR TO EFFORT FOR INTERVENTION IN SPAIN

We do not know anything about The Columbians in Atlanta, Georgia, but we do know plenty about the Red crowd that is making such a big noise against The Columbians.

The Anti - Nazi, Non - Sectarian League, which is using Russian G.P.U. methods on the Columbians, is one thousand times more dangerous to America than the group in Atlanta.

Where did this organization of Russia Worshipers get the authority to act as secret police?

This is part of the Russia-First crowd that is continually drawing the public's attention to the Ku Klux Klan, demanding they be outlawed in an effort to keep our attention on the Klan and off their Communist activity.

The same strategy is being used to keep our attention on Spain and off Poland and ten other European countries where Red Fascists rule by murder, rape, and robbery.

Citizens in Spain have ten times more freedom than Polish or Russian citizens. Still, the United Nations is so completely dominated by Communists that our Red-dominated administration does not dare mention this fact while the United Nations is in session in New York (America's Moscow).

'AMERICAN' VETERANS GROUP, UNITED NATIONS, 'ROY CARLSON' AND WALTER WINCHELL TOOLS OF INSIDIOUS OPPORTUNISTS SEEKING POWER OVER ALL PEOPLES MADE POSSIBLE BY GULLIBILITY OF MR. CHURCHILL AND F.D.R.

In our September 1 issue we challenged the American Veterans Committee to clean out the Communist elements within their ranks so that they could honestly offer prospective members an opportunity to join a real American organization.

We presented some very important facts regarding their activities and associations, such as close cooperation with "In Fact," edited by George Selles, which paper constantly smears the American Legion and many outstanding patriots, but always manages to find praise for the American Veterans Committee and Communist Fronts and movements. We pointed out the close association of this so-called veterans' organization with Communist Fronts and their hostility to men who were combatting Communism. **We have written proof in our possession.**

Since September 1, there has been considerable agitation by some A.V.C. members to check the growth of Communism in their organization. In view of this, it was hoped that the election of officers last month would weaken the position of Communism in the A.V.C.

We are familiar with the recent anti-Communist statement published by the American Veterans Committee, which was no doubt forced by the anti-Communist group within the organization. But, in spite of this "lip service", their

actions, judging from what we can hear and see, has not become more American, but less.

The President . . . and therefore the "chosen one" of the group . . . Charles Guy Bolte, in a review of the book "The Plotters" for the New York Times, says: "If anybody is passing out Americanism awards this year, here's one vote for John Roy Carlson" — the author of this book.

Page after page could be written on the subject of John Roy Carlson, although he is certainly not worth the amount of time and effort that would be involved. But, so that you may be able to identify this "noble character" who has been nominated for an Americanism award by the President of the American Veterans Committee, we would present these facts. The name, John Roy Carlson, is one of nine aliases used by this human scavenger who has been twice convicted, in court, of libel. In "Carlson's" latest court case in Chicago, in connection with his book of smear and lies, "Under Cover", Federal Judge Barnes made the following statement, which is in direct contrast to the complimentary statement of Mr. Bolte:

"The book is over five hundred pages of twaddle, just twaddle, with a few outrageous charges wholly unfounded. I think the book was written by a wholly irresponsible person who was willing to say anything for money. I wouldn't believe him on oath now, or at any time hereafter. I think that book was published by a publisher who was willing to publish anything for money . . . I don't think they made an adequate investigation of the author of that book. If they had, they would not publish it unless they cared more for the almighty dollar than they cared for human decency. So I say that had I been trying this case, there would have been substantial damages assessed against this defendant, because I think he is guilty — as guilty as any person who's ever been in this court."

Incidentally, Walter Winchell is awaiting trial for selling this book of smears and lies.

Now comes "The Plotters," smearing all who combat Communism as Fascists. This book is approved and backed by the Anti-Defamation League, pushed by Walter Winchell and advertised in PM.

To get back to the A.V.C., although we realize there are many good, well-meaning men who belong to the Committee, from the many facts we have

been able to gather, we would suggest that this organization should now leave the word "American" out of its name!

On December 12, Charles G. Bolte talked on the Atomic Bomb at George Inness High School in Montclair, N. J. The writer, in the company of three other gentlemen, attended the meeting. We were jolted into the realization that our American form of government is in more immediate danger than we had believed possible.

Bolte proceeded to follow the Atomic Bomb problem with the help of written material obviously prepared by someone far more informed than he. Bolte made it very plain that the Atomic Bomb is such a terrible menace to all humanity that there is only one way to escape complete annihilation. That solution, according to Mr. Bolte, is World Government. Mr. Bolte stated that this was only the second time the A.V.C. had defined their position in this matter. A few nights previous in New York they had announced that their board had gone on record in favor of World Government.

The important points he made were that there must be a World Police Force; A World Supreme Court; that the World Government must have **complete control of every citizen of the world** for the "protection of these citizens against Atomic Bombs. Otherwise an inspection system would have to be set up to regularly examine every package in stores and homes all over the world to watch for Atomic Bombs.

The question was asked from the floor, "You are educating us here in Montclair, N. J., to the need of World Government. What is being done to educate the people in Podunk, Oklahoma, and all over the world?" Bolte's answer was to the effect that most of the world is not in a position to resist and that authorities held that the United States could be "converted" to the idea within a very short time, by means of effective propaganda, at a cost of twenty-five million dollars. He did not say whether the A.V.C. is receiving part of the twenty-five million.

One other questioner was informed that the A.V.C. has one-hundred thousand members and is drawing eight-thousand new ones each month.

It had been understood that the A.V.C. was having serious financial difficulties. Now we see them selling the World Government, which is backed by plenty of money. We trust A.V.C.'s difficulties are solved.

So, fellow Americans, you have lived to see the day that a so-called American veterans' organization is out to replace our American Form of Government so that you will no longer be a citizen

of the United States, but an insignificant, unimportant, and voiceless member of a World Government. Space will not permit us to give you now the names of the main backers of World Government; later, when we have a larger paper, we will do so, and you will find most of these names associated with International Communism.

Like the general who has two plans of attack and uses one to force his enemy into submission to the other, these international Reds, who have been quietly pushing Communism, now come out in the open and use the Atomic Bomb to scare us into World Government. The United Nations is developing the preliminary framework or temporary organization to be handed over to the World Government.

The exact same crowd told us Hitler would come three thousand miles across the ocean to conquer us if we did not bankrupt ourselves and crush Germany. Their ulterior motive in defeating Germany, which they "neglected" to tell us, was the release of Communism and its unopposed spread throughout Europe.

Germany is defeated and Britain is weak and trembling before the onrush of atheistic Communism. This mad and hungry beast is running wild over the world . . . we are powerless to defend ourselves because the people "will not believe" until they see his fangs dripping with blood.

Winston Churchill realizes the horror that he helped bring into power. He and F.D.R. fell for the same crowd that is now trying to frighten us into abandoning America in favor of World Slavery. This "scare" routine should be a familiar pattern to Mr. Churchill, for didn't he tell Mr. Roosevelt at the Atlantic Conference to "scare the hell out of them"? Then we had Pearl Harbor!! Now they are to "scare hell" out of us with the atomic bomb.

Mr. Churchill has learned a great deal to his sorrow. We believe he would gladly pledge his country to fifty billion dollars . . . to keep Great Britain great . . . and to put things back together again as they were before the betrayal of the free peoples of the world. But all the King's horses and the comparatively few living anti-Communists cannot "put things back together again" and cannot stop the mighty hand of Stalin. No — **no power on earth can put things back together again.**

Would you like to know who we believe will be the first president, the first head of the Supreme Court, and the first treasurer of "World Government"? We will tell you in a later issue of THINK WEEKLY.

BIT OF THIS & THAT

By David Goldstein, L.L. D.

TRADE UNIONS: The Communist danger in France, Italy, and the Latin American countries not so much in the increase in the number of votes that Communist candidates for public office received in recent elections as in Communist control of the trade unions in these countries. It is by virtue of control of the un-

ions that the labor influence of the Communists is established, and the number of their votes thereby increased.

.....
A. F. of L. AND C. I. O.: Fear of Communist control of the trade unions in our country would not trouble students of the labor situation if the issue depended upon the American Federation of Labor. Its record of unequivocal opposition to Communist activity in the unions, and the Soviet Union foreign policy, noted in this column (Aug. 31, 1946), is admirable. Too bad we cannot bestow the same praise upon the C.I.O. Its president, Philip Murray, would no doubt like to deal with the Communists in his organization in the same manner. Evidently he fears to do so, as such straightforward action would be likely to split the C.I.O., as it ought to be split now, instead of when Communist influence therein is likely to have increased. What, save timidity, can account for his appointment of three Communists on the committee of six, to pass upon the Communism within the organization? What other reason can there be, save timidity, for President Murray's request that the weasel-worded resolution, reported by the Committee, be accepted by the delegates without debate or the presentation of counter-acting amendments? It the time comes when the C.I.O. stands up in its boots, as did the A. F. of L., and meets the Communists head on, the Daily Worker will not gloat over the action of the C. I. O. as it did over the appeasing resolution adopted in Atlantic City a few weeks ago.

HOW MORGENTHAU PLAN IS WORKING IN WUERZBERG

We have seen a letter from Wuerzburg, Germany. An educated, cultured lady writes that this city of churches and universities (no factories) was more than half destroyed by bombs during the war.

This lady lives with fourteen other women in one room. Only one or two may go on the street at a time due to lack of clothes. Each day they are loaned a pot, which must be returned in two hours, to cook what little they are able to secure under the Morgenthau starvation plan.

This plan is being enforced by hand-picked civilian Communists sent from Washington. The Communist manipulators of the New Deal sent these Reds over to enforce Samuel Lubin's creation, the Morgenthau Plan, even though it has been repudiated by Secretary Byrnes publicly in Stuttgart, Germany, and Morgenthau taken out of the Treasury, where he dished out millions in taxpayers' money to popularize O.P.A. and other Red movements.

When will the White House be able to run without instructions from Felix Frankfurter, Samuel Rosenman, and David Niles?

BY THE OBSERVER

The War Powers Acts are nothing more than contrivances to cheat the American people and their Government. They were designed and are being operated by ambitious and crooked politicians to run the Government to suit themselves at our expense. The War Powers Acts are un-Constitutional because they are repugnant to Article 1, Section 1, and other parts of our Constitution. And, according to "U. S. Constitutional Theory" by Chief Justice Marshall, they are binding on no one. The President and the Congress have sworn and paid to know these facts and certainly to know the Constitution.

"The basis of our political system is the right of the people to make and to alter their Constitutions of government; but the Constitution which at any time exists, 'til changed by an explicit and authentic act of the whole people, is sacredly obligatory upon all" . . . George Washington, President of the Constitutional Convention.

KARL MARX SAID:

"Christian brotherly love has been tried for eighteen centuries and found wanting. I will found my (Communist) movement on a more dynamic force — class antagonism and the dictatorship of the proletariat."

TWO KINDS OF ARITHMETIC . . .

(continued from first page)

THE PATTERN WAS NOT "MADE IN AMERICA"

The pattern of the conspiring collectivists' arithmetic is already set. It wasn't set in America. It is "Divide and Conquer" — take everything — create a new kind of state that owns everything, including your Bill of Rights and the 1776 goose which laid the golden egg. This pattern is of foreign origin. You just exchange your liberty for a tin cup to use in begging for favors from your masters. The people are to be just serfs — panhandlers.

"Be fruitful and multiply" — that Biblical injunction cannot be carried out unless we hold inviolate the 1776 arithmetic of liberty. You cannot distribute wealth until you produce it, and the minute wealth production begins, wealth distribution begins. That kills incentive capital risks — Yes, "be fruitful and multiply," but industry cannot produce as fast as government can print bonds. If this paper wealth production is not stopped, the 1776 arithmetic will find itself in the financial hopper.

LESS OR MORE?

Today America stands at the crossroads — one signboard points to the left and reads "Less and less for more and more." It points the way of the collectivist's arithmetic. The other signboard points to the right. It is set upon a foundation of the Constitution, the Bill of Rights and the Declaration of Independence. It reads "This way for more and more for everybody."

THE SING SING BOYS HAVE "SECURITY"

True security comes from liberty, freedom and equality of opportunity. It does not come with being a ward of the State. The prisoners of Alcatraz, Sing Sing and Atlanta have security, but still none of them want to stay there and, once released, none want to go back. They seek real freedom and liberty.

HOUSING FOR VETERANS COULD BE MADE POSSIBLE BY POLICING U.S. BORDERS

The American Veterans Committee in Washington this week threatened that veterans may assert "squatter's rights" to get housing, as was done in London!

If the A.V.C. is sincere in trying to provide housing for veterans, we suggest they use their influence on the present Red-dominated Administration to stop sixty thousand monthly illegal entries into the United States. These refugees (at least 95% of them Reds) report to influential organizations upon entry and receive housing — regardless of what happens to native-born Americans. And if and when unemployment hits the U.S., these refugees will receive preference while former GIs walk the streets.

But since the A.V.C. is dominated by Reds, we can hardly expect this organization to get to the bottom of the housing problem — or any other problem — since **90% of our so-called problems today are being deliberately created by the Communists** to cause confusion and discontent. So, in spite of their supposedly interested and militant attitude toward the veterans housing situation, we would not look for any helpful or constructive action on the part of the American Veterans Committee.

WHO IS RIGHT ?

"Let us stand by the Constitution as it is, and by our country as it is, one united and entire, let it be a truth engraved on our hearts; let it be under the flag under which we rally in every exigency, that we have one country, one Constitution, one destiny."

—Daniel Webster

"The Constitution is a relic of the horse and buggy days."

—Franklin D. Roosevelt

COMMUNISTS

(from American Legion Bulletin, North Shore Post 21, Chicago)

Legionnaires, never speak unkindly of Communists . . . never knock them because God made them the same as He made crabs, hornets, roaches, ants, centipedes, fleas, lice, snakes, skunks and other unpleasant things. In His inscrutable wisdom He made them. Why He made them only He knows. Some day He may enlighten us . . . but up to now . . . I'll be damned if I understand.

WOULD YOU RATHER BE A DEAD ELEPHANT THAN A LIVE MOUSE?

Why do we fight in the face of the overwhelming evidence that Communism is taking over the world, including the United States?

Because we would rather be a dead American than a live slave of Stalin!

THE ONLY WAY TO SAVE THE DAY—

By Horace Carlisle

We don't promote prosperity
When we discourage thrift—
We don't by weakening the strong
Give to the weak a lift.

We've never yet helped small men
up

By tearing big men down—
It does not help the poor to break
The rich in any town.

We can't keep out of trouble if
We spend all our income—
We can't secure world brotherhood
By stirring strife at home.

We can't have sound security
On money that's a loan—
We can't in men build character
If we've none of our own.

We can't give courage, yet destroy
Men's independence—nor
Can anything but hope for peace
Make sane men turn to war.

We can't help men by helping them
To feed from public shelves—
The only way to help men is
To help them help themselves.

We predict the slogan "Remember Pearl Harbor" will not be popular with the New Dealers after the New Congress is in session!
